Great Lakes Utilities

Request for Proposal

Long Term Capacity Resource

Great Lakes Utilities (GLU) is a municipal electric company formed under Section 66.0825, Wis. Stats. As such, it is a public body and a political subdivision of the State of Wisconsin, with separate legal status from that of its members. GLU was formed in 2000 in order to become a vehicle for obtaining low cost and reliable electric power for its members. GLU is currently forecasting that it will need additional capacity resources beginning in 2023 and is in the process of planning for how to obtain those resources.

GLU is a full Market Participant (MP) of the Midcontinent Independent Transmission System Operator (MISO) and is responsible for the load assets of the WPS.GLU and NSP.GLU load zones.

GLU is requesting proposals from electric suppliers to supply 35 MWs of long-term capacity resources to meet a portion of its members' projected load requirements. GLU expects the capacity to be available at an equivalent of MISO Load Resource Zone 2 or 1 and is willing to entertain any viable alternative to meet its capacity requirements. Suppliers may submit proposals for capacity resources with standard detailed information being provided in the RFP Response Package. The requested start date for the capacity purchases is June 1, 2023.

Transmission and Delivery Point(s)

Capacity resources proposed to meet GLU's requirements shall be deliverable to the Midcontinent Independent Transmission System Operator (MISO) market. Seller shall clearly define the proposed delivery point within the MISO system. GLU's preferred delivery points for the capacity is MISO Load Resource Zone 2 but will entertain offers from other delivery points within the MISO system that are proposed.

Seller shall clearly define in the proposal how the capacity will be scheduled within the MISO market.

Pricing

Prices quoted shall be clearly indicated as either firm priced offers or prices subject to change. If prices are subject to change, the drivers in the pricing formula must be clearly stated.

Reservation of Rights

GLU reserves the right to accept or reject any proposals at its sole discretion. In addition, GLU reserves the right to consider other alternatives outside of this request to satisfy its energy supply needs.

RFP Schedule

The following schedule and deadlines apply to this RFP:

Activity	Date
Issue RFP	March 23, 2020
RFP Response Package Due	April 8, 2020
Notification of Interest	May 15, 2020
Execute Contracts (if any)	July 15, 2020

All proposals submitted in response to this RFP must be received by GLU no later than April 8, 2020. Electronic versions of the responses will be acceptable. GLU reserves the right to unilaterally revise or suspend the schedule.

Proposal Responses and Inquiries

By submitting a proposal, each bidder agrees to accept and abide by the terms of this RFP. All costs incurred in responding to this RFP and preparing a proposal are the sole costs of the bidder. GLU will not reimburse any bidder for costs incurred in responding to this RFP or for costs incurred during any subsequent negotiations related to this RFP.

Please direct any questions and send proposals to the GLU Official Contact. Questions must be provided in writing to the Official Contact email address.
