

REQUEST FOR PROPOSAL TO PROVIDE POWER SUPPLY TO DATA CENTERS IN THE USA

BACKGROUND

MKC is a real estate and energy procurement consultant who has clients in need of power for data centers. Currently working with a client that needs land and power immediately. The client already has three data centers operating in the USA in various locations with 15-20MW per location. The client is also looking to scale up to 200MW in the next 1-2 years.

REQUIREMENTS

Load Capacity Requirement: 10MW-20MW immediately

Timeline: no requirement of building substation

Land: Lease with 5 years minimum term with option to extend; or purchase

Location: Statewide (except considering Texas and New York)

Uptime: capability to at least go up to 90% of uptime

Voltage: preferably 13.8kv. If not, 25.8kv can also be acceptable

Site description: land/industrial park close to substation

INSTRUCTIONS TO BIDDERS

Proposals should include the following:

1. Company name, company bio, point of contact, and website
2. Proposed site locations and all details including proposed site size (10-200MW)
3. Interconnection voltage level
4. Energy pricing, terms, and other contingencies

Please submit proposals via email to Mina Choe at mina@mkc.llc

If you have any questions, please feel free to contact Mina at 317-496-7882

DEADLINE

Proposals are due by end of business day on **August 19, 2022**. Thank you in advance!

SELECTION PROCESS

MKC considers all proposals to be non-binding and for negotiation purposes only. MKC will review proposals immediately upon receiving and continue to until August 26, 2022. MKC will then contact the parties who best meets the projects criteria. MKC is looking to work with more than one company. MKC is looking to foster good relationships with other NAEMA members.
